

Vision Solutions Quote Procedure

At vision we require our customers to provide us with some of their project details via the following steps so we can provide them with a free cost estimate before attending any site inspections or meetings. If the customer prefers to have a site meeting without providing any of their project details it will incur a fee of \$70 + GST. This fee will be waived if the customer chooses to proceed with the project.

STEP 1 = PROVIDE DETAILS

Fill out the quote request form that you can download via the quote request page on our website or can be sent to you via email and return to us.

Alternatively, send an email with the job details including any photos or sketches you may have. Refer to the quote request form for some inspiration on the details we require. You can also call Vision and provide us with your project details over the phone if that's easier for you.

STEP 2 = COST ESTIMATE

Vision Solutions will then proceed to work out a ball park cost estimate for you to see if the prices are roughly in your project budget. If the cost estimate supplied by Vision Solutions falls within or is close to your project budget please contact us to arrange a free onsite meeting. At the onsite meeting we will take an official on site assessment and measurement of your project.

STEP 3 = FORMAL QUOTE

With the information gathered at your onsite meeting Vision Solutions will provide you with a written quote on formal letterhead. If you are happy with the formal quote, email us with approval to proceed and reference the related Quote number provided at the top of the page.

Small business service!
